"Notwithstanding the great number of books that have been written about Abraham Lincoln during our generation, a major need has long remained unfilled. There has been no accurate, readable one-volume biography for the Lincoln beginner, for the person who can only devote a small portion of his time to learning about Lincoln, or for the high-school teacher or college professor who wishes to include a reasonable short life of Lincoln on his students' reading list....So it is my hope and purpose that this book will fill a long-felt want. It is intended primarily for the reading public rather than for the expert, though I hope that the experts will approve of it.
