

# Tales for Tots Baby/Toddler Storytime

# Raising Readers Preschool Storytime

# Thursday Afterschool Family Events

This program is for our youngest library patrons and takes place on Wednesday mornings at either 9:30 or 10:30 a.m. beginning September 12th. We'll share short stories, games, fingerplays, simple crafts, and the ever-popular parachute time. We welcome children ages 18 months-3 years of age and their caregivers to join us for this 30 to 45-minute gathering.

This program is for children who are ready for longer stories and activities. We'll be sure to include practice with letters, numbers, colors, and shapes along with fun stories, games, and crafts. We welcome children ages 3-5 and their caregivers at 10:00 a.m. on Tuesday mornings beginning September 11th. Come join the fun!

We invite the whole family to join us once per month for our after school family programs. Most programs are scheduled from 3-5 pm but watch our website for specific details. Dates for this session include:

September 12-Furry Friends Petting Zoo

October 24th: Halloween Fun

November 14th: PBS/WTTW Kids Lab Guys

December 12: Cookies and Stories with Mrs. Claus

## Movie Nights

We are planning movie nights on some of the evenings when kids will be off from school the following day. The first of these will be on Thursday, October 17 at 6 pm. Watch the library website for more information.

## Young Library Volunteers

Our young library volunteer program is for youth ages 11-14. This group meets one Thursday per month from 3:30-4:30 pm. Volunteers help with basic library tasks and assist with preparing children's program activities. These youths also work with younger children during our family event programs and the summer reading program. Ask at the youth circulation desk for more information.

## Kids Coding Club

Our kids coding club meets on Tuesdays after school. There are different sessions organized by age groups so be sure to stop in at the youth circulation desk and pick up more information.

## About Us

We design our programs to be developmentally appropriate. One of the library's main goals is to promote literacy development and create young readers. We hope young patrons will find the library a fun and inviting place to be.
