

**DIXON PUBLIC
LIBRARY**

COMPUTER CODING FOR KIDS

Dixon Public library will be offering a variety of different coding club sessions every other Thursday this fall beginning September 15th. Our after-school groups will be divided by age as follows:

Kindergarten/First Grade-2:45-3:25

Second/Third Grade-3:30-4:10

Fourth/Fifth Grade- 4:15-4:55

We are also offering a session geared toward homeschool families that will meet Thursday mornings from 10:45-11:30. We are asking families participating in this group to plan on offering parental assistance on a rotating basis.

If neither of these in-person options work, we are also a limited number of virtual coding sessions where you view some tutorials online and then work on your own at home

Space and equipment are limited so registration is required. Contact the library at (815) 284-7261, Ext. 2 or email Kathleen at kathleen.schaefer@dixonpubliclibrary.org
