

Coding Club Registration  
Winter/Spring 2023

Coding Club at the library will resume in the new year on Thursday, January 12th. We are making a slight change to our options which will hopefully make it easier for families to fit it into their schedules.

We will continue to offer a morning session that meets from 10:45-11:30. This is for ages K-6th grade. In the afternoons, we will be offering two time options. Both options are open to anyone ages Kindergarten through 6th grade. One session will meet from 2:45-3:25 and the second session will meet from 3:30-4:15. To assist with planning, we ask that you fill out the form below and return it to the library. (If it's more convenient, you can always just email me your choice.) We will still be meeting every other week on the following dates:

January 12  
January 26  
February 9  
February 23  
March 9  
March 23

Remote coding is also an option if none of these times fit into your schedule. Please contact me if you are interested in that option. If you need to miss a session and would like to make it up, I can often arrange a time to do so. Feel free to contact me. As always, let me know if you have any questions.
